EDUCATION

Pune Institute of Computer Technology
BE in Information Technology (CGPA - 8.22)

2022 – 2026
Pune

EXPERIENCE

Web Development Intern

March 2025 – May 2025

Astraeus Next Gen Pvt. Ltd

- Developed secure and scalable REST APIs using **Node.js** and **Express.js**, with **JWT** based authentication for user access control.
- Collaborated with the AIML team to build and integrate a dataset upload interface using **React.js**, enabling real-time processing via backend APIs.
- Conducted performance and SEO optimization using **Google Lighthouse**, resulting in improved **core web vitals** and enhanced user experience.

SKILLS

Languages: C++, Java, HTML, CSS, JavaScript
Web Technologies: React.js, Node.js, Express.js, Tailwind CSS, Prisma
Databases: MongoDB, MySQL, PostgreSQL
Developer Tools: Git, GitHub, Postman, Vercel, Linux
Coursework: Database Management Systems, Object-Oriented Programming, Operating Systems, Data Structures and Algorithms

PROJECTS

CodeCollab | *React.js, Node.js, Express.js, Socket.io, Tailwind CSS*

- Built a real-time collaborative coding tool where users can join shared rooms using unique IDs to write and edit code together with live chat support.
- Enhanced user collaboration with multi-language code editing and a synchronized chat sidebar powered by Socket.io.

BlogNest | *React.js, Hono, Node.js, PostgreSQL, Prisma, Zod, Tailwind CSS*

- Designed a fast, lightweight blogging app where users can create and explore posts with a clean UI and secure JWT login, achieving faster API responses with Hono's minimal backend.
- Created a shared Zod schema package to enforce consistent validation and cut frontend/backend boilerplate in half.

PramanChain | *Node.js, Express.js, MongoDB, JWT, SHA-256, QR Code*

- Built a secure digital marksheet system that generates tamper-proof certificates with embedded QR codes and validates data using SHA-256 hashing.
- Implemented JWT-based protected routes, optimized data storage in MongoDB, and ensured end-to-end verification through hash comparison and QR scanning.

ACHIEVEMENTS

- Achieved **Pupil** on Codeforces with a max rating of **1238**.
- Reached **3-Star** on CodeChef with a peak rating of **1628**.
- Solved over **500 DSA problems** across LeetCode, Codeforces, CodeChef, and other platforms.
- Represented **SPPU** in a national-level intercollegiate Chess tournament in Karnataka (2024).
